ARIZONA DEPARTMENT OF ENVIRONMENTAL QUALITY: Director Steve Owens Update by Arizona Department of Environmental Quality Director: Director Owens introduced his staff and stated that his first meeting as Director had been in Navajo County and it related to underground storage tanks (UST) and that these important issues involving County constituents are now being resolved. He advised that the Governor gave him a very clear directive to assist rural areas and thus they started the Route 66 UST initiative that became a model for other areas, including the EPA. He cautioned that the last date for eligibility for reimbursements related to UST removal is June 30, 2006, requesting that Supervisors get this information out to their constituents. He said his office assists in developing grants to provide additional revenues sources and that they provided a grant for Trees for the Rim in the aftermath of the Rodeo Chediski fire. He reported they are working to clean up the rubble from the burned JC Penney building in Winslow even though it is not an ADEQ issue. He outlined participation in assisting water system management, citing one that his staff is currently working on in Navajo County. In response to a question from Mr. Deal, he stated that the current definition of UST removal reimbursement affects incorporated areas of 15,000 or less and does not address unincorporated areas. He said that even though there is still the sovereignty issue to contend with on the reservation, they are exploring clarifying the definition to include unincorporated areas. All Board members expressed their appreciation to Director Owens and his staff, especially commending Byron James.

- 1) **Public Hearing:** Discussion and possible approval by **Resolution** -05 the proposed Special Use Permit request by David & Susan Jacobs for the construction of a 180' self-supported, wireless cellular communications tower with equipment shelter on Assessor's Parcel Number 203-25-001: Bill Fraley advised this request for the cell tower to be placed on top of Black Mesa, which is about 8-9 miles out of Snowflake, has gone to the Planning and Zoning Commission where it was requested that prior to coming before the Board access to the property be addressed and an archaeological study should be performed on the site. He said both items have been satisfactorily addressed and described the resolution. He reported the P&Z Commission voted to approve this Special Use Permit on a 6-2 vote. He complimented Cell One on how cooperative they were with staff and the community members. He advised he had received an email and phone call objection based on aesthetics from Gary Lane who is within the 300' perimeter and that Mr. Porter is here to speak on his behalf. Mr. Fraley reported that one person attended the hearing and raised concerns regarding the shards and hieroglyphics and those

concerns were addressed through the archaeological study. Mr. Fraley read the stipulations as outlined by staff and included on the resolution. Mr. DeSpain requested that the stipulations clarify that the owner of the tower is Cell One. Chairman Brownlow advised those present this is a public hearing and stated that anyone opposed, who wishes to speak, may do so now. Terris Porter stated he is an attorney representing Gary Lane and advised his client's property overlooks a mesa and that the erection of the tower will significantly mar the view and will negatively impact the value of his property. He requested the Board deny this request. Carl Wibel of Cellular One advised he is present to answer any questions related to the information already provided. Mr. Brownlow asked and received information regarding that Mr. Lane's property is south of the tower. Mr. Tenney inquired if it is normal for the P&Z Commission to request an archaeological study on private property. Mr. Fraley stated it is not usual and he disagreed with the request. He stated it is typical to go through this process with the least amount of expense possible and it would typically be performed after the special use permit is granted. Mr. Tenney concurred that this requirement should not have been imposed and expressed his appreciation to Cell One for their cooperation. Mr. Fraley stated that he is working with the County Attorney's office to assure that appropriate actions are taken in the future. Mr. DeSpain stated that he and Mr. Fraley visited the site, viewing the road issues and gaining the understanding that Cell One made a commitment to improve that road without County assistance. He said he was assured by a review of the Cedar Hills Community Planning document that this action falls within their plan. **Mr. DeSpain made a motion** to approve, with the modification designating Cell One as the owner, **Resolution #71-05** authorizing the proposed Special Use Permit request by David & Susan Jacobs for the construction of a 180' self-supported, wireless cellular communications tower with equipment shelter on Assessor's Parcel Number 203-25-001; motion seconded by Mr. Tenney; vote unanimous approving the motion.

- 4) Discussion and possible approval of purchase order for one 950 Loader through the Maricopa County Solicitation Serial #04112-C with Empire Machinery for the per unit cost of \$207,708.25: Mr. Parsons advised the Board that the purchase order for this item had to be written last week as the contract with Maricopa County was expiring and if not approved, the purchase order could be withdrawn. Mr. Tenney inquired if, when the item is approved through the budget process there is a need for the item to come before the Board again for approval to purchase. Mr. Bowers said there is no legal requirement for this to happen if it has been previously approved when budgeted and is bought under appropriate procurement regulations unless the Board wants to be apprised of purchases over a specific amount. In response to a question from Mr. Bowers, Mr. Parsons stated that this item is within the budgeted amount. Mr. Tenney stated he believes that the only items that need to come before the Board are purchases that were not included in the budget process. Mr. Thompson stated that there had been previous concerns with graders that he would have been unaware of had the issue not come to the Board for action. Board members, with the exception of Mr. Thompson, agreed with the position that future purchases need not come to the Board if approved in the budgeting process and appropriate procurement practices are followed. In response to a question, Mr. Parsons advised the Board that if the District Supervisor wants the used equipment sold to NAVIT, he will bring this back to the Board

to make that request.
