In making its recommendation, the Commission shall consider the compatibility of the proposed use with the permissible uses in the zoning district in which the property is located, the current and likely future uses of properties in the vicinity of the proposed use, and the effects of the proposed use on the public health, safety and general welfare.
4. The recommendation of the Commission may include reasonable requirements and stipulations as deemed necessary to achieve the purposes of this Ordinance and promote the public health, safety and general welfare, including but not limited to the following:
